Product Description

Square Filter

These are related to the Square Filter XunChi® news, in which you can learn about the updated information in Square Filter, to help you better understand and expand Square Filter market.

The Square Filter can use any filter elements: Singed polyester, spun bond polyester cartridges and PTFE membrane bags or cartridges and can be built in either carbon steel or stainless steel. All of the Square Filters use a compressed air back flushing style cleaning method commonly called “pulse jet” cleaning.
